our HISTORY

The leading innovator in liquid applicator technologies for over 130 years!

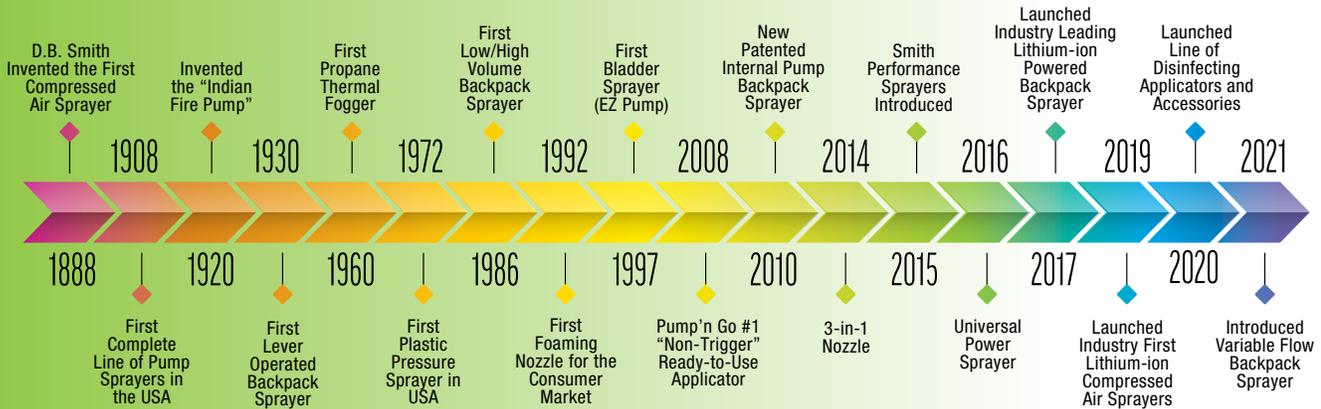

Ever since we introduced the first compressed air sprayer in 1888, we've dedicated ourselves to creating products that make consumers' lives easier. Over the years, we've continued to build our legacy as the innovation leader in liquid applicator technologies with numerous category leading introductions.

Today, we're proud to offer only the highest quality pump sprayers, backpack sprayers, mosquito foggers and more for home and professional use.

Our sprayers are sold under the Smith®, Roundup®, Field King®, Indian®, Husqvarna®, Scotts®, DeWALT®, Craftsman® and Black+Decker® brands, while our foggers are sold under the Black Flag®, Burgess®, Cutter® and Repel® brands.

Our vision is simple: the best performance for your money. That's kept us on top for over 130 years...and we're as confident as ever in the future. We thank you for your business and look forward to serving you for the next 130 years!

With faster flow rates, consistent output pressure and no pumping, our Professional Battery Powered Sprayer line with Pump Zero[®] technology revolutionizes the compressed air sprayer industry. For use by both professionals and the everyday DIYers, this

HOW PUMP ZERO TECHNOLOGY® WORKS

**PUMP ZERO®
LITHIUM-ION
POWERED
PUMP HEAD**

Pulls and captures air into tank creating constant pressure that forces liquids out.

Works with liquids and wettable powders.

SPRAYS UP TO

24

Full Tanks per Charge

Constant Spray Pressure

NO TOOLS REQUIRED
for assembly & maintenance

EASY to MAINTAIN!
SEALS take 5 Minutes to replace

See page 5

lithium-ion powered sprayer will save the user time, money and energy. The rechargeable battery, built into the pump handle, enables the user to spray up to 24 gallons of both liquids and wettable powders on a single charge.

Pump head and charger included

190730

Scott's ELITE Lithium-ion Battery Powered Backpack Sprayer

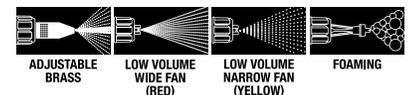

- 18V Rechargeable lithium-ion 2.0Ah battery sprays up to 50 gallons of liquid per charge.
- Next generation, higher performance motor and pump delivers 36% more output than earlier design to handle a wider range of chemical applications.
- Professional shut-off with comfort grip, lock & filter can be operated with heavy-duty work gloves.
- 4 hours of spray duration on a single charge.
- Sprays at 40 PSI for efficient spraying and consistent application rates saving time and reducing chemical waste.
- 21" poly-lined stainless steel wand designed for chemical resistance and durability.
- Superior padded shoulder harness for all day comfort.
- Viton® seals and gaskets throughout the pump and shut-off for long lasting chemical resistance.
- AC charger included.

Burgess

REPEL Cutter

FOGGERS & INSECTICIDES

While various disposable sprays and candles may repel mosquitoes for a short period of time, allowing them to return, a reusable fogger reaches mosquitoes where they hide and kills them on contact. Enjoy a mosquito-free evening without having to spray yourself or your clothing! Manufactured in the USA for over 50 years.

HOW DOES IT WORK?

The secret to fogging is in the microscopic particles it produces, up to 7 times finer than mist. When applied before dusk or dawn,

the fog floats and penetrates deep into landscaped areas where mosquitoes hide-killing on contact and creating a mosquito-free zone.

5min.
FOG GONE
MOSQUITOES GONE

TIPS FOR EFFECTIVE FOGGING:

Always let the fogger preheat for at least 2 minutes prior to use. With the wind at

your back, pump trigger every 3-4 seconds to produce a white fog.

- If liquid is coming out of the fogger, squeeze the trigger less often.
- If fog is yellow or brown in color, squeeze trigger more often.

Apply deep into base of trees and shrubs and let the fog drift through the foliage.

Note: Always stand upwind from the fog.

SAFE

People and pets may enter the treated area as soon as the fog disperses with no offensive residual odor.

LONG LASTING

One application protects against mosquitoes for hours.

FAST

Treats an average 5,000 square foot yard in less than 10 minutes.

Burgess®

THE ORIGINAL THERMAL FOGGER

16443652N

16960110N

16982150

Burgess® Propane Fogger

- The same effective system used by professionals to kill mosquitoes.
- Kills mosquitos and biting flies.
- Treats an average 5,000 square foot yard in less than 10 minutes.
- Everyone can enter the treated area as soon as the fog disperses (typically less than 5 minutes).
- Propane powered making the fogger completely portable. Compatible with a 14.1 oz. tall style **only** (sold separately).
- Use only with Black Flag®, Cutter®, or Repel® branded fogging insecticides.

MORE
CHEMICALLY
COMPATIBLE

S103EX

**Built to
Work as
Hard as
You Do™**

Built to withstand harsh environments and even harsher chemicals, our industrial construction series is essential for any contractor. Each product is fit with chemically resistant seals and appropriate components specifically designed for contact with concrete chemicals.

Stainless Steel

tank, pump barrel, and dip tube. No need for epoxy coating that will peel over time causing pin holes to develop.

Welded Stainless Wand Holder

for durability and dependability. When lifting the tank the wand won't fall through!

Pressure Relief Valve

A safety feature to keep the chemical where it belongs, in the tank.

MORE
SAFETY
FEATURES

**Viton®
Extreme™**

BLUE SEALS

mean maximum chemical resistance. Easy to replace.

S103EX

with **Stainless Steel Wand** and **Shut-off**

- Toughest chemical resistance
- Best regulatory compliance
- Longest-lasting seals

S103EX is ideal for low VOC sealers, curing compounds, releasing agents, acetone, oils, and water -or solvent- based chemicals.

**Quad
Locking
Top**

Safely secures pump to tank body but relieves pressure over 85 PSI.

S103E

with **Brass Wand** and **Shut-off**

- Tough chemical resistance
- Wide regulatory compliance
- Long-lasting seals

**Viton®
BROWN SEALS**

have long-term chemical resistance. Easy to replace.

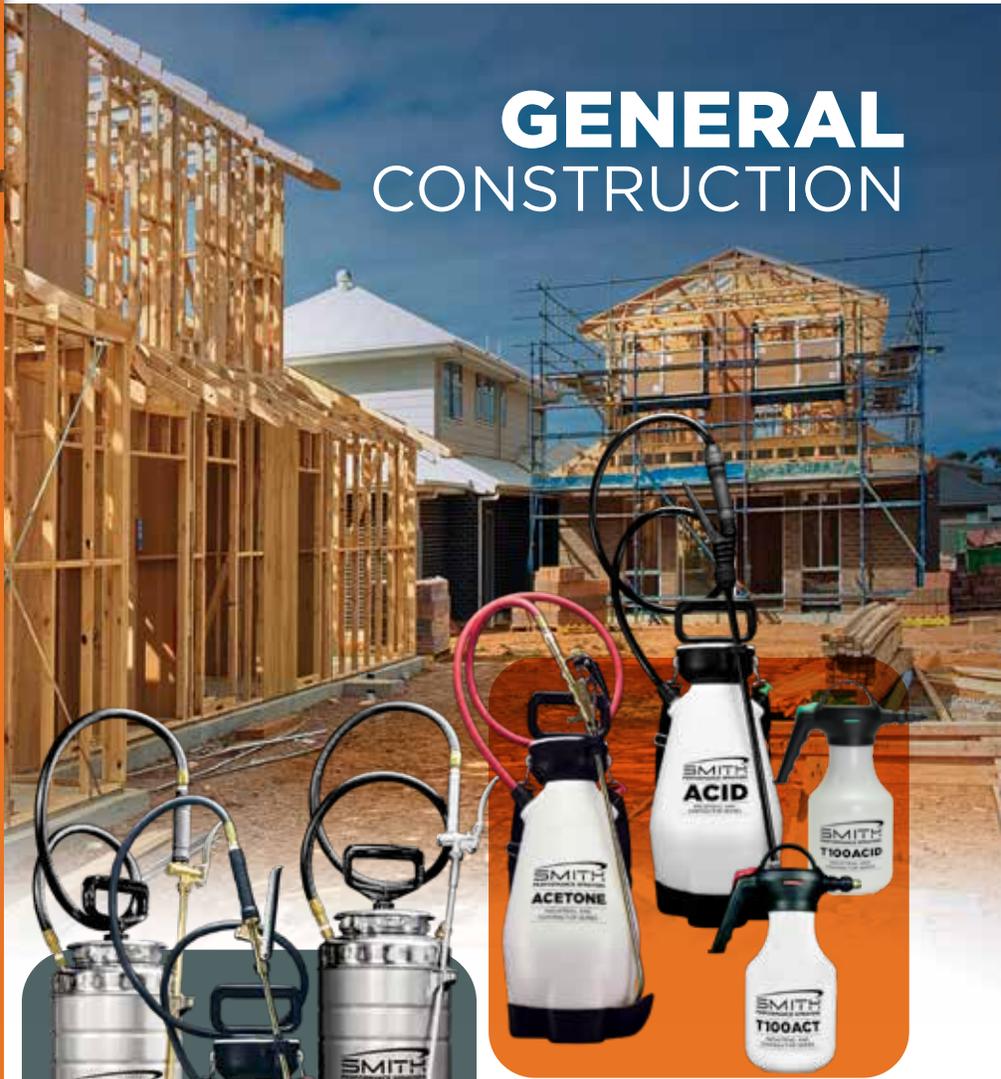

CONSTRUCTION SPRAYERS

SMITH™ Performance Construction Sprayers

and components are built to withstand harsh chemicals along with rugged transport and use on the worksite. Built with the highest quality seals for maximum chemical resistance and designed for faster, easier maintenance, the pump seals can be changed within minutes without tools...which equals less downtime and more efficiency on the job.

SMOKECHASER™ PRO

with **DUAL ACTION FP300 FIRE PUMP**
and **WARRIOR™ NOZZLE**

- A** **5 Gallon Ballistic Nylon Bag** with heavy-duty, load sensitive internal liner for use in rugged terrain.
Ergonomically Shaped Bag, specifically designed for greater balance of load.
- B** **Storage Pocket** across the front for a shelter bag.
- C** **Side Pockets** for storage and easy access.
- D** **Large Cap Opening** for easy filling.
- E** **Heavily Padded, Adjustable Shoulder Straps** for optimum comfort.
- F** **Adjustable Belt** and **Lumbar Support** designed to customize your comfort.
- G** **Dual Action FP300 Fire Pump** with **Warrior Nozzle**.

Pouch Attachment Ladder System (PALS) used to attach MOLLE pouches and gives the ability to secure tools, equipment and nozzles.

WARRIOR™ ADJUSTABLE NOZZLE

Attaches to all Fedco™ Fire Pumps
(sold with the Dual Action FP300 Fire Pump)

Solid Brass Design provides for long lasting performance in tough environments

Adjustable Nozzle can spray from stream to spray, without having to remove it.

Locking Mechanism to prevent the user from accidentally unscrewing the nozzle as they go from stream to spray.

Rugged Design can be adjusted easily, even with heavy-duty gloves.

Adjusts from
Straight Stream
to **Spray**

Poly Tank Fire Pumps

INDIAN™ POLY TANK with FP200 PUMP

- 5 Gallon UV resistant poly tank will not rust.
- Heavy-duty base absorbs shocks and protects tank.
- Premium brass Pump - The Best, Most Reliable Pump!
- Lumbar support brace - holds tank away from back and transfers weight from the shoulders to the hips.
- Combination nozzle can be quickly switched from straight stream to fan spray with no special tools.
- Waist belt for added comfort.

FEDCO™ POLY TANK with FP100 PUMP

- 5 Gallon UV resistant poly tank that will not rust.
- Heavy-duty base absorbs shocks and protects tank.
- All brass constructed fire pumps for durability and reliability.
- Ventilated cap with watertight gasket will not leak.
- Large 4" tank opening for easy filling.
- Comfortable padded shoulder straps include clip-on strap to secure pump and leave hands free.
- Combination nozzle can be quickly switched from straight stream to fan spray with no special tools.

CARRY RACK for POLY TANKS

Mount a fire pump securely on the fire trucks.

Universal style carry rack designed for FEDCO 190387 and INDIAN 190191 (Poly Tank Fire Pump sold separately).

FP100 FIRE PUMP (175764)

Used on **FSV500, DBL500, DBL501**

- Designed with brass components and built to outlast any competitive pump.
- Primes up to 8x quicker than the competition and delivers more water faster.
- Large brass cylinder provides for easy pumping and bind free operation.
- Padded grip for comfort.

FP200 FIRE PUMP (174111, 180902)

Used on **FER500, 90G, 90S**

- Designed with brass components and built to outlast any competitive pump.
- Primes up to 8x quicker than the competition and delivers more water, faster.
- Larger cylinder provides for easy pumping and bind free operation.
- Combination nozzle can be quickly switched from straight stream to fan spray with no special tools.

FPG100 FIRE PUMP (182373)

Used on **FSV500PG**

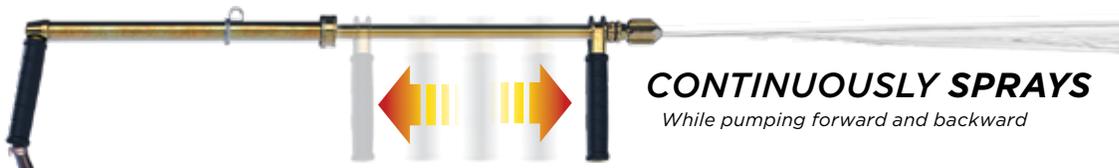

- Designed with brass components and built to outlast any competitive pump.
- Primes up to 8x quicker than the competition and delivers more water faster.
- Large brass cylinder provides for easy pumping and bind free operation.
- Solid brass pistol grip for increased leverage and improved ergonomics
- Padded grip for comfort.
- Combination nozzle can be quickly switched from straight stream to fan spray with no special tools.

NEW for
2021

FP300 DUAL ACTION FIRE PUMP (184834)

Used on **190653 and 190654**

- Designed with brass components and built to outlast any competitive pump.
- Pump delivers continuous flow of water, expelling water on the push and pull of each stroke.
- The nozzle spray can be easily adjusted while continuously pumping.
- Two-handed pistol grip operation allows for greater control and accuracy of the water.
- Adjustable brass nozzle easily adjusts from straight stream to spray with heavy-duty gloves on.
- Primes up to 8x quicker than the competition and delivers more water faster.

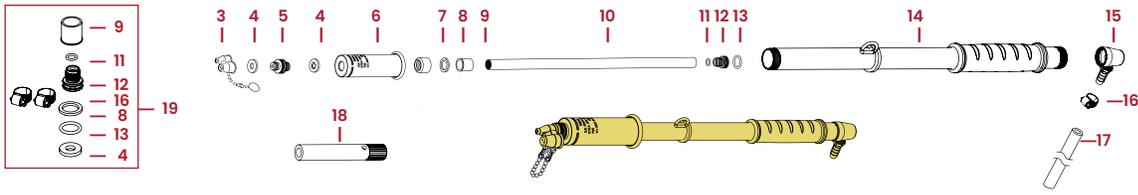

CONTINUOUSLY SPRAYS
While pumping forward and backward
